

EduVision_DV: Higher Education Performance Dashboard

Objective

Develop an interactive Tableau dashboard suite for analyzing university rankings, research performance, student diversity, academic excellence, and country-level education trends.

Dashboard 1: University Overview

Purpose

Provide a comprehensive overview of university performance and global rankings.

KPI Cards

- Global Ranking Score
- Overall Score
- Academic Reputation Score
- Research Impact Score
- Faculty-to-Student Ratio
- International Student Percentage

Visualizations

1. Top 10 Universities by Overall Score

- Horizontal Bar Chart

2. University Distribution by Country

- Filled World Map

3. Academic Reputation Analysis

- Bubble Chart

4. University Performance Trends

- Line Chart

5. University Comparison

- Scatter Plot

Filters

- University
- Country
- Region
- Year

Navigation

- Research Analytics
- Student Analytics
- Country Comparison

Dashboard 2: Research Analytics

Purpose

Analyze research quality, citation performance, and research productivity.

KPI Cards

- Research Score

- Citation Score
- Research Impact Score
- Research Productivity Index

Visualizations

1. Top Research Universities

- Horizontal Bar Chart

2. Citation Performance Analysis

- Bar Chart

3. Research Productivity Trends

- Line Chart

4. Research Score by Region

- Heat Map

5. Research Impact Comparison

- Scatter Plot

Filters

- University
- Country
- Year

Navigation

- University Overview
- Student Analytics

- Country Comparison

Dashboard 3: Student Analytics

Purpose

Analyze student demographics, internationalization, and faculty-student relationships.

KPI Cards

- Total Students
- International Students
- International Student %
- Faculty-to-Student Ratio

Visualizations

1. Student Distribution

- Bar Chart

2. International Students by Country

- Filled Map

3. Student Diversity Analysis

- Pie/Donut Chart

4. Faculty-to-Student Ratio Analysis

- Column Chart

5. University Enrollment Comparison

- Scatter Plot

Filters

- University
- Country
- Year

Navigation

- University Overview
- Research Analytics
- Country Comparison

Dashboard 4: Country Comparison

Purpose

Compare countries using university performance and educational indicators.

KPI Cards

- Number of Universities
- Average Ranking
- Average Research Score
- International Student Indicators

Visualizations

1. Country Ranking Comparison

- Horizontal Bar Chart

2. Education Performance Benchmarking

- Radar Chart

3. Regional Education Trends

- Line Chart

4. Top Performing Countries

- Bar Chart

5. Country-to-Country Comparison

- Scatter Plot

Filters

- Country
- Region
- Year
- **Navigation**
- University Overview
- Research Analytics
- Student Analytics

Dashboard Interlinking Architecture

The four dashboards will be interconnected through:

Common Filters

- University_ID
- Country_ID
- Year

Navigation Buttons

- Home
- University Overview
- Research Analytics
- Student Analytics
- Country Comparison

Filter Actions

Use Case 1

University Overview → Research Analytics

Example:

Harvard University selected

↓

Research Analytics opens with Harvard University selected

Use Case 2

University Overview → Student Analytics

MIT selected

↓

Student Analytics opens with MIT selected

Use Case 3

University Overview → Country Comparison

IIT Delhi selected

Country Comparison opens with India selected

Dashboard Layout Standard

Header Section

- Project Logo
- Dashboard Title
- Navigation Buttons

KPI Section

- KPI Cards

Visualization Section

- Charts
- Maps
- Trend Analysis

Filter Panel

- Year
- Region
- Country
- University

Footer

- Dataset Source
- Last Updated Date
