

EduVision — Dashboard Prototype

Module 4: Dashboard Planning & Prototyping

Purpose: A working prototype showing the dashboard story, KPIs, filters, navigation, dashboard actions and interactive comparisons. It is intentionally prototype-level rather than production-level.

Four Dashboard Requirements

1. University Overview

Main content: Total Universities; Average Rank; Overall Score; Top Universities 2025;

University Map. Filters: Country; Region; Source (QS_2025 default).

Interaction / navigation: Select a university to filter/highlight related views; navigation to other dashboards.

2. Research Analytics

Main content: Research Impact; Academic Reputation; Research comparison; Research

Productivity/Citation comparison. Filters: University; Country; Region; Year; Source.

Interaction / navigation: Select a university to highlight research metrics; navigation across dashboards.

3. Student Analytics

Main content: Faculty–Student Ratio; International Students; Student comparison; International

Student comparison. Filters: University; Country; Region; Year; Source.

Interaction / navigation: Select a university to highlight student metrics; navigation across dashboards.

4. Country Comparison

Main content: Country ranking; Tertiary Enrollment; Adult Literacy; Government

Education Expenditure. Filters: Country; Region.

Interaction / navigation: Select a country to highlight comparison views; navigation across dashboards.

This storyboard serves as the **design specification** for the EduVision dashboard. The Tableau **.twbx** workbook should implement the four dashboards, defined filters, navigation, and inter-dashboard actions using the **final dataset**.

Dashboard 1 — University Overview

Purpose: Starting dashboard for the university landscape and ranking performance.

Area	Prototype specification
Header	EDUVISION UNIVERSITY OVERVIEW
Filters	Country ▼ Region ▼ Source (QS_2025 default)
KPI cards	Total Universities Average Rank Overall Score
Main chart	Top Universities 2025 — Top 10 horizontal bar chart
Map	University Map — number of universities by country
Navigation	University Overview Research Analytics Student Analytics Country Comparison University Comparison
Action	Selecting a university in Top Universities 2025 filters/highlights the dashboard views.

Dashboard 2 — Research Analytics

Purpose: Research-focused analysis and university comparison.

Area	Prototype specification
Header	EDUVISION RESEARCH ANALYTICS
Filters	University ▼ Country ▼ Region ▼ Year ▼ Source ▼
KPI cards	Research Impact Academic Reputation
Main chart	Research Impact by University — ranked comparison
Secondary chart	Research Productivity / Citation comparison
Navigation	All dashboard navigation buttons
Action	Selecting a university highlights its research metrics.

Dashboard 3 — Student Analytics

Purpose: Student scale, internationalization and faculty–student analysis.

Area	Prototype specification
Header	EDUVISION STUDENT ANALYTICS
Filters	University ▼ Country ▼ Region ▼ Year ▼ Source ▼
KPI cards	Faculty–Student Ratio International Students
Main chart	Student comparison by University
Secondary chart	International Student Percentage comparison
Navigation	All dashboard navigation buttons
Action	Selecting a university highlights its student metrics.

Dashboard 4 — Country Comparison

Purpose: Country-level education comparison.

Area	Prototype specification
Header	EDUVISION COUNTRY COMPARISON
Filters	Country ▼ Region ▼
Main chart	Country comparison using an education indicator
Secondary chart	Tertiary Enrollment / Adult Literacy comparison
Supporting metric	Government Education Expenditure
Navigation	All dashboard navigation buttons
Action	Selecting a country highlights the country comparison views.
