

EDUVISION DV

QUALITY ASSURANCE (QA) CHECKLIST

Higher Education Analytics Dashboard • Final Project Documentation

Project	EduVision DV	Platform	Tableau
Dashboard Count	4	Workbook Format	Packaged Tableau workbook (.twbx)
Target Resolutions	1366×768 and 1920×1080	Configured Actions	22 Tableau actions

1. QA Checklist

TC ID	Test Area	Expected / Verification	Status
TC-01	KPI values against embedded data	Verify displayed KPI values against the embedded workbook data.	PASS
TC-02	Ranking / data consistency	Verify ranking-related values and displayed data remain consistent with the workbook.	PASS
TC-03	Dashboard structure	Verify all four dashboards and their required worksheets/views are present.	PASS
TC-04	Configured Tableau actions	Verify configured navigation and dashboard actions respond as expected.	PASS
TC-05	Formatting consistency	Verify alignment, readability, number formats, filters, chart placement and consistent presentation.	PASS
TC-06	1366×768 runtime layout	Verify dashboard layout and visual presentation at 1366×768.	PASS
TC-07	1920×1080 runtime layout	Verify dashboard layout and visual presentation at 1920×1080.	PASS
TC-08	Interactive filter / action response	Verify filters and interactive selections produce the expected dashboard response.	PASS
TC-09	Tooltip behaviour	Verify tooltips display appropriately for the dashboard visualizations.	PASS
TC-20	Formatting and Visual Consistency	Dashboard formatting was reviewed for alignment, readability, number formats, filters, chart placement and consistent presentation.	PASS

2. QA Summary

Category	Result
Data / KPI validation	PASS
Ranking and dashboard structure	PASS
Navigation and Tableau actions	PASS
Formatting and visual consistency	PASS
Runtime layout — 1366×768	PASS
Runtime layout — 1920×1080	PASS
Interactive response and tooltips	PASS

3. QA Notes

- Quality assurance is separated into data/structure checks and visual/runtime checks.
- The four connected dashboards are University Overview, Research Analytics, Student Analytics and Country Comparison.
- The workbook contains 22 configured Tableau actions.
- The visual QA checks use 1366×768 and 1920×1080 as the target display resolutions.
- The QA results above reflect the documented final project QA status.
